

LIST OF FIGURES

Figure 1. Some Comparisons of Residual Weathering Profiles (Kulhawy et al., 1991)	2
Figure 2. Displacement Influence Factor for Horizontal Load (from Poulos, 1971)	10
Figure 3. Displacement Influence Factor for Moment (from Poulos, 1971)	10
Figure 4. Model of a Laterally Loaded Pile (Reese, 1997).....	12
Figure 5. Equilibrium of an Element of Pile.....	13
Figure 6. Typical Measured Strain from Testing.....	15
Figure 7. Transition between Residual Soil and Unweathered Rock	16
Figure 8. Sketch of P-y Curve for Rock (from Reese, 1997)	18
Figure 9. Typical P-y Curves Estimated from Reese's Method	20
Figure 10. Predicted versus Measured Response (Stiff Clay Model, from Gabr, 1993) ..	21
Figure 11. (a) Shaft and Soil/Rock Mass System; (b) Coordinate System and Displacement Components; (c) Shear Force V(z) and Moment M(z) Acting on Shaft at depth, z (from Zhang and Einstein, 2000).....	22
Figure 12. (a) Components of Rock Mass Resistance, (b) Calculation of Normal Limit Stress P_L (from Zhang and Einstein, 2000).....	23
Figure 13. Geotechnical Strength Index (Hoek and Brown, 1997)	25
Figure 14. Test Site Locations within the Durham Triassic Basin (Parish, 2001).....	29
Figure 15. Component of Rock Dilatometer (Rock Dilatometer Manual, 1999)	35
Figure 16. Typical Pressure/Dilation Graphs for a Pressuremeter Test (Briaud, 1988) ...	36
Figure 17. Testing Chamber	42
Figure 18. Surcharging and Lateral Loading System	42
Figure 19. Grain Size Analysis of ABC Mixture.....	44
Figure 20. ABC Triaxial Tests (6 blows for density control)	45
Figure 21. ABC Triaxial Tests (25 blows for density control)	46
Figure 22. p-q diagram for ABC Mixture	47
Figure 23. Dimensions and Boundary Conditions for Modeling of Laboratory Test.....	48
Figure 24. Stress Contour of the Laboratory Modeling under Design Load	50
Figure 25. Typical Moment Curvature regression	54
Figure 26. Geokon EPC layout	55
Figure 27. Stress Distribution	56
Figure 28. P-y Curves without Surcharge.....	57
Figure 29. P-y Curves with Surcharge	57
